

# EYFS information for subject leaders- PSHE

The EYFS framework is structured differently to the National Curriculum and in EYFS, children learn across 7 areas of learning. These are:

- Communication & Language
- Personal, social and emotional development
- Physical development
- Mathematics
- Literacy
- Understanding of the world
- Expressive arts and design

The table below demonstrates which statements from the 2020 Development Matters are prerequisite skills for PSHE within the National Curriculum. The table below outlines the most relevant statements taken from the Early Learning Goals in the EYFS statutory framework and the Development Matters age ranges for Three and Four-Year-Olds (Nursery) and Reception to match the programme of study for PSHE.

These skills will be taught through a range of adult led sessions and through child initiated play in the environment. These skills will be revisited through the year and children are not expected to learn in a linear way. They may have to explore the skill various times and in different ways before acquiring it. The skills will be taught through a topic approach based on children's interests and adult chosen topics using stories for inspiration. Lots of these skills will also develop as part of our daily routine and with working with parents. The new EYFS curriculum now specifically talks about the teaching of good oral hygiene for example. To support parents with this at home we ensure that we have strong home – school relationships. Later in the year, we hope to run some parent workshops with different focuses. One workshop will include a visit from a dental nurse and parents will be invited along to gain advice and support in caring for their child's teeth.
